With a background in both architecture and medicine, Danish designer Asger Risborg Jakobsen finds inspiration in the simultaneous complexity and simplicity of nature. He is driven by creating designs that outlive trends and that can endure everyday use over many years.

With his strong focus on longevity in terms of durability, functionality and aesthetics, Asger is not subject to short-lived trends and tendencies.

"I believe that instead of making trendy objects we should try to make objects that outlive trends. The objects we make will of course always reflect our time and in this way, nothing is genuinely timeless, but I aim to create contemporary classics."
