• **Soft industrial design**

Pine is a decorative series in an industrial design that creates a nice contrast to the bright Nordic interior style. With the
combination of the matte metal and elegant brass details, the series obtains an exclusive look. Pine gets a unique character and
an innovative light experience with the small holes in the top and side of the shade, creating a beautiful effect when the light is
spreading out into the room.

A nice detail on Pine table lamp in matte black metal is the elegant brass switch on the top of the shade, making it easy and
convenient to turn the light on and off. The table lamp can be used wherever you need a little extra light - in the office, living
room or bedroom.
