## • Soft industrial design

Pine is a decorative series in an industrial design that creates a nice contrast to the bright Nordic interior style. With the combination of the matte metal and elegant brass details, the series obtains an exclusive look. Pine gets a unique character and an innovative light experience with the small holes in the top and side of the shade, creating a beautiful effect when the light is spreading out into the room.

A nice detail on Pine table lamp in matte grey metal is the elegant brass switch on the top of the shade, making it easy and convenient to turn the light on and off. The table lamp can be used wherever you need a little extra light - in the office, living room or bedroom.
