- Contemporary art deco style
- Matte white opal mouth blown glass
- Three lamp heads that emit a practical light

Contina combines attractive design and functionality, where it is the carefully selected details that make the series stand out and unique. The light frame is completed by a spherical opal white glass dome that hides the light source and spreads a soft glare free light into the room.

Contina is a minimalistic long pendant with three light sources in matte black metal, which is perfect above the long dining or kitchen table. With the slim design, the pendant does not cut the visibility or take up any unnecessary space in the room.

The glass in this lamp is mouth-blown and has been individually hand crafted. Due to this unique process, air bubbles may appear in the glass and the thickness of the glass can also vary. This gives the glass its character and vivid appearance.
