- Contemporary art deco style
- Matte white opal mouth blown glass
- Three lamp heads that emit a practical light

Contina combines attractive design and functionality, where it is the carefully selected details that make the series stand out and unique. The light frame is completed by a spherical opal white glass dome that hides the light source and spreads a soft glare free light into the room.

Contina is an exclusive long pendant with three light sources in the most beautiful brass, which adds warmth and cosiness to the bright Nordic decor. With the slim design, the pendant does not cut the visibility or take up any unnecessary space in the room, and therefore, it is perfect above the long dining or kitchen table.

The glass in this lamp is mouth-blown and has been individually hand crafted. Due to this unique process, air bubbles may appear in the glass and the thickness of the glass can also vary. This gives the glass its character and vivid appearance.
