- Contemporary art deco style
- Matte white opal mouth blown glass
- Adjustable lamp shade to both sides and up/down

Contina combines attractive design and functionality, where it is the carefully selected details that make the series stand out and unique. The light frame is completed by a spherical opal white glass dome that hides the light source and spreads a soft glare free light into the room.

Contina is a modern floor lamp in matte black metal with many functionalities and applications. The lamp head can be rotated to both sides, and simultaneously the upper part of the frame can be adjusted up and down.

The glass in this lamp is mouth-blown and has been individually hand crafted. Due to this unique process, air bubbles may appear in the glass and the thickness of the glass can also vary. This gives the glass its character and vivid appearance.
