Energy class: F  
Actual watt (W): 9.5

- 2-step Moodmaker™ dimming • Stepless touch dimmer • Cabinet bracket included
- Vertical and horizontal installation possible • 5-year LED guarantee

Helva Double is a modern and minimalistic wall lamp with integrated LED and 2-step Moodmaker™ functionality that allows you to dim the light and set the colour temperature from cold to warm light with a simple touch on the lamp dimmer switch. One short touch switches the light from cold to warm, whereas a long touch will dim the light to your specific needs. The built-in memory function remembers your last light setting.

Helva Double can be mounted vertically or horizontally onto the wall or on a cabinet using the included cabin bracket. The high IP degree (IP44) makes it suitable for humid areas such as the bathroom.
