• On/Off by PIR hand movement motion sensor

Bity is a LED under cabinet lamp that is operated by PIR hand movement (motion) sensor. By moving your hand underneath Bity, you will be able to turn it on and off without having to touch a wall switch.

Bity is ideal under the cabinets in the kitchen that hang above the work surface. The cool light provided by the LED source and the hand movement (motion) sensor both provide perfect conditions for in example cooking. Connector block is included.
