With a beautifully curved design, the Grip wall light by Danish designer Maria Berntsen adds a modern, yet timeless feel to your outdoor space. Grip lights up the dark with a stylish elegance that fits any exterior design. The built-in Nordlux Smart LED creates a soft, diffused light that you can dim, adjust and turn on and off through the Nordlux Smart system.

To ensure you have a strong signal from your Smart app/remote to the lamp, we recommend you connect no more than 5 lamps.

Please be aware that the distance between the lamps should not be greater than 1.5 m and the distance to your Smart app/remote control should not be greater than 2.5 m.
