"Design For The People
is a way of creating
cool design products at
a price everyone can
afford. Design with a
Nordic twist intended
for people all over the
world"

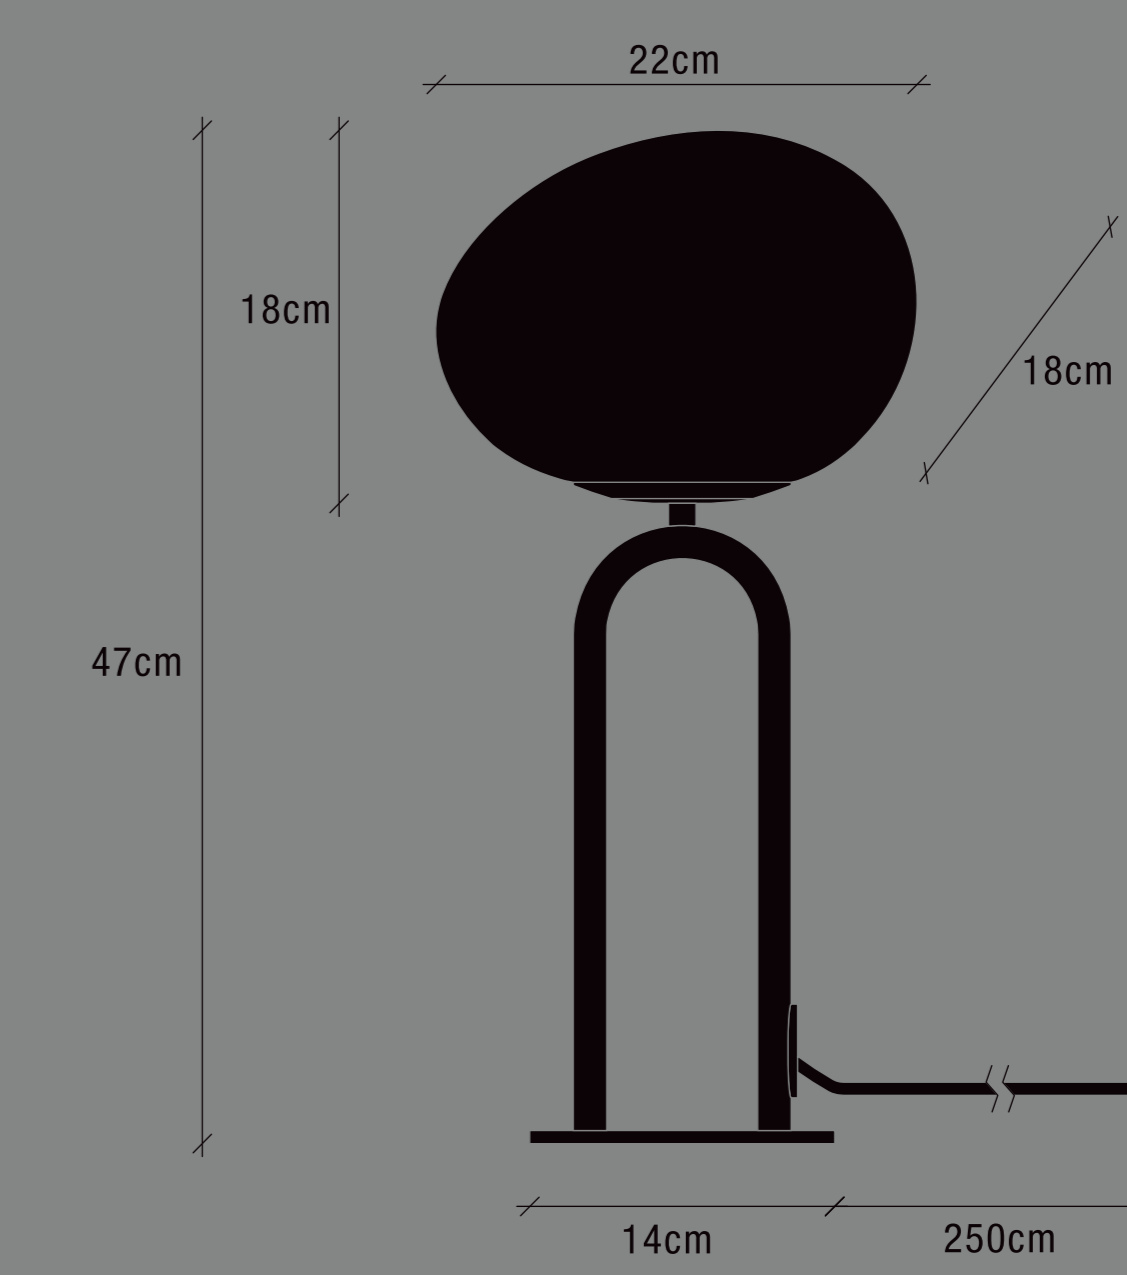

SHAPES TABLE
designed in Denmark by
Maria Bernitsen

At the start of a new project, I look
for an idea with some functionality
and beauty by making and
visualizing. I find the idea, how it
might be used, and its purpose.
Good design communicates and
establishes a dialogue with the
viewer. Design is not just about
functionality - it is so much about
the emotional connection and impact.
The success is when the design
brings joy in the everyday lives of
people.
