

ANGLE WALL

by Maria Berntsen

With her own design studio in Copenhagen, Maria Berntsen has since 1992 focused on architecture and design.

Maria Berntsen is a well-established name in the design industry and has over the years collaborated with a wide range of Danish and international companies, where her extensive experience has resulted in many successful designs.

"At the start of a new project, I look for an idea with nerve, functionality and identity. By modelling and visualizing, I test the idea, how it might be used, and its presence.

Good design communicates and establishes a dialogue with the receiver. Design is not just about functionality – it is as much about the emotional connection and impact. To me, success is when my design brings joy in the everyday lives of people"
