Colour of the glass: Clear
Colour: Stainless steel

• Both up- and down-light

This handy Nordlux wall light provides attractive lighting for your main entrance or garage. The design is simple and Scandinavian – the quality is high. This version of the Tin light has 2 light bulbs, which diffuse light both upward and downward – a very elegant detail. This light has a built-in sensor that activates upon sensing movement, and shuts off when all is still.

Maintenance: Treat with acid-free oil 3-4 times a year. We do not recommend stainless steel light fixtures for aggressive environments.
