- Sculptural design • Elegant material mix of metal and marble
- Soft, indirect light • Movable shades

With Caché, Danish designer Charlotte Høncke has created a table lamp with an intriguing and eye-catching design. The lamp is made from two perfectly round shades, united elegantly by a solid marble base. Caché creates an interesting and playful ambience where the light is reflected back and forth between the two shades.

Marble is a unique natural material and therefore lines, colours and patterns may vary from lamp to lamp. This is a part of the charm of working with natural materials.
