Studio Mavro//Lefèvre by Sofie Lefèvre
Sofie Lefèvre finished her Design degree at the Royal College of Art in London and has since then worked passionately with lighting designs inspired by elements from history, architecture and nature.

Working with lighting comes naturally to Sofie. She understands and emphasizes the impact light has on our lives and is fascinated by the way light can change the interior. "I find it very interesting working with atmospheres created by light. There are so many aspects where my inner child can be released, playing with angles, materials and openings to create the wanted reflection or diffusion of light."
