# KAITO PRO 30

by Bonnellycke mdd

Bonnellycke mdd was established in 1988. Driven by a nosurpressable urge and desire to work constructively with the design of lamps, furniture and interior and innovatively, Bonnellycke mdd started his career decorating. Quickly, he became known as an unconventional architect with no whims and fancies.

His ability to challenge and optimize the manufacturing process itself is to be found in Henrik's original professional background as a toolmaker.

"It could be fun" and "of course it can be done" – are phrases often used in his company.

From day one, the core of his work has been to create products simply because they are needed. Designs by Bonnellycke mdd grow out of a specific need or requirement expressed by the customer – and by the general public as such. This has resulted in a comprehensive portfolio of projects and designs allowing the company to slowly but steadily expand over the years.
