Product net weight (kg): 1.35

- Built-in daylight and motion sensor • Built-in parallel connection
- Extra durable material suitable for coastal areas (Designed For Seaside) • 15-year guarantee on surface deterioration

This elegant wall light from the Nordlux Luxembourg series is a classic outdoor wall light with a glass dome to provide beautiful lighting at your entrance, in the driveway, garage, on the terrace, or on the patio. The light is equipped with a sensor, which makes the light switch on automatically when someone passes. The light can be connected in parallel with several lights and is equipped with an LED bulb.

This product is part of our "Designed For Seaside" range, crafted from extra durable materials to withstand even the harshest coastal weather conditions.

Over time, exposure to the elements causes the galvanised steel to develop a beautiful, darker patina.
