Nital Studio was founded by industrial designer Nital Patel - driven by curiosity and a fascination with how objects are made, and how they subtly shape our everyday lives. Having lived in many parts of the world, he brings a global perspective to his work, where cultures, crafts, and ideas meet. For Nital, design isn't just a profession, it's how he understands and responds to the world around him.

He finds inspiration everywhere: in culture, music, fashion, and art. He loves when contrasting ideas collide - when something contemporary meets something timeless and sparks a new conversation.

For Nital, good design connects function with feeling. In lighting, he explores how technology and tactility can merge so seamlessly that the experience feels effortless - something you don't notice but simply feel.
