## • Modern yet timeless design

Raito is a modern, timeless and extremely beautiful series of designer lamps where simplicity and elegance merge in the best possible way. The design in opal glass gives the series a pleasant, light surface and a soft, diffuse light that is glare-free and undisturbed. Raito contributes to the current design trends in lighting, where the suspension is made of brass and the shade of opal glass in a beautiful combination. Designed by Bønnelycke mdd

The Raito floor lamp is elegant and decorative, its brass frame nestling closely and elegantly up against the opal white glass shade. It provides a diffuse light without glare, which can be switched off on the lamp itself. The beautiful mix of materials highlights the lamp's organic design language and adds elegance to the lamp.
