• Modern yet timeless design

Raito is a modern, timeless and extremely beautiful series of designer lamps where simplicity and elegance merge in the best possible way. The design in opal glass gives the series a pleasant, light surface and a soft, diffuse light that is glare-free and undisturbed. Raito contributes to the current design trends in lighting, where the suspension is made of brass and the shade of opal glass in a beautiful combination. Designed by Bønnelycke mdd

Every detail has been given attention when it comes to the Raito wall lamp. The opal glass provides a comfortable light surface which, with the brass frame, creates beautiful and decorative lighting. The wall lamp has also had a fine and functional detail added in the form of a switch feature on the wall bracket.
