STAY
Designed in Denmark by
Maria Berntsen

At the start of a new project, I look for an idea with nerve, functionality and identity by modeling and visualizing, I test the idea, how it might be used, and its presence. Good design communicates and establishes a dialogue with the receiver. Design is not just about functionality – it is as much about the emotional connection and impact. To me, success is when my design brings joy in the everyday lives of people.
