## • Night Light Function 20lm memory

Sway is extremely beautiful in all its simplicity. The minimalistic design reflects the design duo's sharp eye for tasteful lighting, where every detail has been carefully considered. The light is reflected both up and down, giving a soft and pleasant light. At the same time, the lamp's flexible swivel mechanism allows for a directional light that contributes optimal light conditions. A timeless series that can create joy for many years has been created. Designed by Bjørn+Balle

In Sway, a floor lamp that is both decorative and functional has been created. The rotating lampshade can be angled 18 degrees, and the switch has been placed on the rod - two highly functional details. The light is reflected to perfection – both out into the room and up towards the ceiling, providing lighting that is as functional as it is pleasant.
