• Contemporary and simple style

Julian is a minimalist series in a modern design. With the combination of the matte surface and the elegant top in brushed brass, the series takes on an air of exclusivity. The warm light spreads both upwards and downwards through the small holes in the top of the screen, creating a beautiful effect in the light as it spreads out into the room, giving Julian its unique character.

The Julian table lamp is well thought out down to the smallest detail, where the design of the minimalist round base becomes an integral part of the lamp's expression.
