• Industrial style • Design your own lamp with a decorative bulb

Christina contributes to the popular interior trend of using glass as part of decor. The smoked glass dome gives the lamp a special feel when using decorative light sources which spread a warm and soft light in the room. At the same time, the robust base creates a contrast to the soft glass, which fits well into minimalist decor.

The glass in this lamp is mouth-blown and has been individually hand crafted. Due to this unique process, air bubbles may appear in the glass and the thickness of the glass can also vary. This gives the glass its character and vivid appearance.
