## • Create your own design expression with a decorative bulb

Christina has a large, clear glass dome that creates a unique light and design expression when using a big, decorative light source. At the same time, the robust base elegantly contrasts the glass dome, making it fit perfectly into most minimalistic decors.

The glass in this lamp is mouth-blown and has been individually hand crafted. Due to this unique process, air bubbles may appear in the glass and the thickness of the glass can also vary. This gives the glass its character and vivid appearance.
