Energy class: E

Actual watt (W): 4.7

- Stepless dimmable by wall dimmer
- Suitable for humid areas (IP65)
- Parallel connection possible
- Connector block included
- 5-year LED guarantee

A classic round downlight with an integrated LED 345lm dimmable LED module. Dorado is quick and easy to mount via a screwless plug-in connection and a twist-lock system, and at the same time multiple downlights can be easily connected to each other.

The downlight emits a warm light of 2700 K, which makes it particularly suitable in the living room, the dining room or the bedroom. The high degree of IP makes the downlight ideal for humid environments such as the bathroom.
