Carina is a retrofit downlight for indoor use with a die-cast frame. Carina is quick and easy to assemble via a screwless connector and twist-lock system. Furthermore, the downlight includes a dimmable GU10 354lm bulb, which makes it possible to dim the lights depending on the situation and needs.

The downlight is adjustable, making it highly functional as the light can be directed to where you need. The downlight emits a warm light of 2700 K, which is particularly suitable for, for example, the living room, dining room or bedroom.
