Helix illuminates outdoor areas with its distinctive design. The screws are visible, and the finish exudes raw confidence. The actual light bulb is hidden from the eye. It comes from below and ensures indirect lighting, which is evenly distributed in the top part of the light. Design by Bønnelycke MDD.

The galvanised finish makes the light fixture resistant to the Nordic climate. We recommend light fixtures in galvanised steel for coastal areas. It is possible to purchase a base for pillar lighting appropriate for this product.
